

THUG MAGIC SATIVA HYBRID

Proudly grown in Wessington, SD

LET'S INTRODUCE YOU!

- Combining our Ghost Magic OG with our (discontinued) Thug Roze, this strain combines the relaxing and sedative effects with the uplifting and invigorating effects of Thug Roze. Ghost Punch is a high THC Strain with percentages as high as 30.1. It also boasts smells from both its parent strains with earthy yet sour/gasoline smells.
- **Top Terps: Caryophyllene and Limonene**

IT'S LINEAGE

- **Ghost Magic OG**
 - A creation from our very own grower, Ghost Magic OG has boasted THC just under 32%; so it is definitely strong since the overall average THC for cannabis falls between 15-25%. Ghost Magic OG has and will keep throwing potent plants. The dominant terpene in our Ghost Magic OG is limonene. Combing the happy and giggly effects from the Blood Diamond with the sleepiness and relaxation from Do-Si-Dos bring you the mood boosting and stress relieving effects of Ghost Magic. Limonene is known to help with anxiety and depression.
- **Thug Roze**
 - Thug Roze's terpenes include sharp Sativa lemon with sweet tarts. Some have a nice sour/gasoline. The effects it brings are uplifting and invigorating; great for activities. Could also cause some increased appetite.
