

LILAC DIESEL SATIVA HYBRID

Proudly grown in Wessington, SD

LET'S INTRODUCE YOU!

- Bred by Ethos Genetics, Lilac Diesel crosses numerous genetics to bring an entirely new strain to the market. A Silver Lemon Haze x Forbidden Fruit is crossed with NYC Cherry Pie and Citral Glue to bring out this flavorful chemy strain. As you pull apart each glittering little nugget, aromas of sharp chemical diesel and sweet fruity berry are released, all with a spicy overtone. The flavor is on the lighter side of things, with a sweet fruity berry taste that's accented by sour citrus and pine. The Lilac Diesel high is just as delicious as the flavor, with creative and energizing effects that will have you feeling lifted and relaxed in no time at all.
- **Top Terps: Caryophyllene and Limonene**

IT'S LINEAGE

- **Silver Lemon Haze x Forbidden Fruit**
 - Silver Lemon Haze is a sativa dominant hybrid that packs a potent punch of uplifted energetic effects that are ideal for daytime use when you need a little boost to get your day going on the right track. Forbidden Fruit is an indica dominant hybrid strain with a fruity sweet lemony taste that's accented by sweet berries and pine. The aroma is very sweet as well, with a pine overtone that's complemented by lemony berries and earth.
- **NYC Cherry Pie x Citral Glue**
 - NYC Cherry Pie is a tasty sativa with hints of cherry and cake with a smooth finish. Top Terpenes include Terpinolene, Cymene, and Caryophyllene. Citral Glue is a sativa-dominant cross that is coated in red hairs and give off beautiful diesel, citrus, and skunk aromas. Some of the effects from this strain include focused, talkative, and energetic.
